

Profes is the premier forum for practitioners, researchers, and educators to present and discuss experiences, ideas, innovations, as well as concerns related to software process and product quality improvement. Profes 2011 will be the 12th gathering of the Profes community and will take place in Italy.

Traditionally, Profes has provided topics, which are up-to-date, important, and interesting. To ensure that Profes will retain its high standards and that it will keep focusing on the most relevant research issues, the conference is widening its scope to the research areas of process diversity.

The technical program will feature keynote talks, research papers, experience reports. In addition, it will host a number of workshops and tutorials, as well as a Doctoral Symposium.

Organizing Committee:

General Chair:

Giuseppe Visaggio, University of Bari, Italy

Program Committee Co-Chairs:

Danilo Caivano, University of Bari, Italy

Markku Oivo, University of Oulu, Finland

Organizing Chair:

Maria Teresa Baldassarre, University of Bari, Italy
