# Something about my PhD

I am a first year phd student in the PhD program in  
“**Human Relations Sciences**”, psychological  
curriculum.

The doctorate I’am doing is the first **industrial  
doctorate** won by the Department of Education,  
Psychology and Communication Sciences of the  
University of Bari, thanks to an innovative idea by  
Professor Amelia Manuti, in collaboration with  
Professor Danilo Caivano.

# Something else about my PhD project

The project topic is the **Smart Program Management** considered as a part of the thematic area «Digital Agenda: Smart communities and Smart Mobility Systems" of the National Smart Specialization Strategy (SNSI)..

The research aims to **integrate in human resources management the hard perspective**, typical of the resource-based vision, with the soft perspective, represented by the people-based approach, identifying as meeting ground the Project Management and, and mostly, Program Management

# The project partners

- **AQC Lab**, a Spanish laboratory for the certification of software products based on ISO 25000 standards
- **Leader scc**, based in Bari, which deals with training and business consulting, facilitated finance and promotion and management of complex projects.

# Competences to be acquired

- Managerial and organizational skills
- Analytical capacity
- Manage processes and resources
- Intellectual efficacy
- Relationships management
